Investing Ethically

Firstly, we aim to avoid harm: to people, planet and animals. We do this via our exclusions, exceptions and divestment process when selecting and monitoring investments.

Next, we aim to do good. We consider Environmental, Social and Governance (ESG) data and tilt our portfolio towards positive investment themes (such as Renewable Energy, Water & Community Housing). We're particularly seeking companies that meet our financial investment criteria alongside our ESG focus and sustainable themes. We're a signatory to the UN Principles of Responsible Investment and aspire for our investment decisions to contribute to the UN's Sustainable Development Goals.

Climate Change. We believe climate change is a significant threat to our communities and ecosystems. We strive for our investment decisions to drive down the overall emission profile of our fund's equity portfolio.

Please refer to our **Ethical Investment Policy** and to our **Exceptions Register**, available on our website, for more details.

Investor Suitability

The Ethical Trans-Tasman Fund is suited to an investor with a high tolerance to risk and a minimum investment timeframe of 8-10 years.

The strategy focuses primarily on Australasian equities and may hold some cash/ cash equivalents. Consequently, there will be some volatility in the value of your investments which can result in low or negative returns.
